

One East Main Handbook

Maintenance Services Provided

To satisfy your needs and expectations, ULI employs its own maintenance staff. Each member of the maintenance staff is experienced and skilled in a variety of fields. Plumbing, painting, heating, ventilation, air-conditioning and minor electrical repair are some of the specialties handled by ULI field staff. Common maintenance requests include changing light bulbs, tightening doorknobs, hanging pictures, painting, etc. At times, it is necessary or prudent for ULI to outsource a maintenance request. Please refer to your lease to determine whether your request will result in a service fee.
