

10 East Doty Handbook

Validation of Visitor/Client Parking

Visitors or clients must take a ticket from the ticket-dispensing machine as they enter the ramp. They must either pay for the cost of parking or present a validation sticker issued from the tenant as they exit the ramp. After 6pm Monday through Friday (time may vary when special event parking), visitors will be required to pay upon entering the ramp versus paying when exiting. If you wish to validate visitors/guests prior to entering the ramp, a validation would need to be sent ahead of time via paper ticket or electronic QR code. For more information or questions on this, please contact parking@uli.com.

Tenants wanting to obtain validation stickers to validate visitor parking should contact parking@uli.com to set up an account. An invoice will then be generated monthly for the charges the tenant has accrued. When more validation stickers are needed, contact parking@uli.com and please allow 48 hours for processing.

If a visitor does not have a validation sticker issued by a tenant of Block 89, the visitor must pay the general public hourly parking rate when either exiting/entering the ramp depending on the time of day. Credit, debit and mobile pay are accepted, no cash payments.
